Hagerstrom

METALCRAFT STUDIO. WHEELING, ILLINOIS

Meet ERNST HAGERSTROM

Ernst Hagerstrom

was born in Sweden. In his early youth, he evidenced a strong interest in metalcraft and quickly displayed his remarkable ability by transforming metal into objects of pronounced artistic merit.

After thorough training in metalcraft design and several years of interesting experience, he came to America in 1926 because he felt here more people could enjoy his interpretations of this ancient art.

His talent was quickly recognized and he was soon engaged in designing and making many important structural metal grilles, rails, gates, etc. for churches, universities, public buildings and private estates, of which a few are illustrated on the opposite page. Different metals were used—iron, copper, brass, pewter, nickelsilver. For this type of work, sketches are always submitted at a small fee and estimates given for the finished project.

One day Mr. Hagerstrom came to the realization that relatively few people could enjoy his handicraft and he decided to enlarge his efforts to include the large assortment of weathervanes, house signs, lanterns, mail boxes shown in this book—all artistic products of his own design that every home in America would like.

As a result, Hagerstrom metalcraft specialties are today known in every state as well as in many foreign countries.

In 1942 Mr. Hagerstrom settled in Wheeling, Illinois, on a small cross-roads farm, converting the buildings into a delightful combination home, studio and workshop. In this idyllic locale, surrounded by a staff of skilled craftsmen, he conducts his fascinating business. Bertha, his wife, is a genial studio hostess with plenty of artistic ability and excellent business sense.

No mass production methods are tolerated. Each design is originated by Mr. Hagerstrom and made in a bright, modern workshop.

Artist... Designer... Craftsman

Ernst Hagerstrom's love for nature is revealed in many of the charming designs in this catalog. Every item has the distinction and authenticity of master craftsmanship. Unusual as gifts or for your own home, you'll find a wide variety here—something to please everybody.

**ONE BASIC
MECHANISM
IN
TWO SIZES**

Far off in Sweden, in a tiny hamlet, stands a little church built of hand-hewn timbers. Simple in its lines, the architectural style identifies it as a product of native craftsmen of a century or more ago. On top of this church is a weathervane of wrought iron, spinning from one point of the compass to the other . . . or pointing firmly into the powerful winds which sweep down the valleys from the Arctic Circle. All of which is of small importance until one realizes that this weathervane was installed upon the church more than a century ago!

Now the interesting part of the story must be revealed . . . the simple mechanism of this weathervane is so soundly designed and constructed that even the old-timers in the village cannot recollect when last it required attention or even a drop of oil!

and 78 Silhouette Selections

This same basic design and principle is the very one which Ernst Hagerstrom has copied and is using as the standard for all of the weathervanes of his design!

This mechanism is made in two sizes, one for the smaller, lighter silhouettes and a somewhat sturdier one for the larger size. Either size, once installed according to the simple directions accompanying it, will provide a veritable lifetime of service for its proud owner.

SILHOUETTES

Below we present a total of seventy-eight original silhouettes designed by Ernst Hagerstrom. Look them over carefully. You'll enjoy the humor subtly suggested by some . . . the beauty of others, and the touch of authenticity and masterful design in all. Surely, here you will discover one which will appeal to your taste or fancy for either weathervanes or other ornamentation.

SIZES and PRICES

Hagerstrom Weathervanes are made in two sizes, the standard measuring approximately 27" wide by 32" high . . . the larger being 30" wide by 40" high. These sizes vary somewhat due to the proportions of the silhouette. You will note that prices vary according to intricacy of design.

Please specify whether you want gable or cupola mounting. Our cupola mounting is a clever design which extends 36" into the cupola so that weathervane can be firmly mounted on an inside crosspiece. Add \$3.00 for this mounting. All prices are for complete weathervane, ready to install according to the simple instructions packed with every vane.

A Glowing Tribute to Your Guest

The cheer of illumination and the assurance of identification are two of the nicest compliments you can extend the arriving guest. Reminiscent of the olden days when even a flickering candle was a welcome sight to the traveller, today's fine Early American lanterns and decorative House and Estate signs not only offer this functional value, but they add beauty and distinction to the house as well.

On the following pages we illustrate and describe our complete line of Colonial lanterns in a variety of styles and sizes. When used in combination with either house or estate signs, one of these lanterns really provides a glowing touch of distinction to your premises.

They are made to fit any standard 4" x 4" post, and we suggest a ten foot length with the bottom creosoted for a distance of three feet. You can obtain suitable posts from your lumber dealer or you may prefer our standard ten foot, 4" x 4" post already creosoted and grooved for wiring, ready for mounting either lantern or sign for only \$5.50.

A SELECTION OF SEVEN DESIGNS

A Hagerstrom hand crafted estate sign is really the crowning glory of your outdoor decorative scheme. So much can be accomplished in individuality, atmosphere and distinction that it is impossible to cover the subject in its entirety in this limited space. Besides the silhouettes suggested here you can select any of the 78 silhouettes shown on earlier pages.

The ornamental bracket and the silhouette frame is made of sturdy wrought iron. The silhouette is cut from heavy gauge aluminum. The letters are cut out in aluminum and are mounted on a bar on both sides of the sign by two screws. This feature avoids any future sign painting, as letters can be quickly disassembled for refinishing. Owners name as well as farm name can be provided at your choice. Balance of the sign is finished in rich satin-black. Complete with heavy screws for installation and limit of 20 letters on each side. Size bracket extension, 36" silhouette frame, 26" wide by 22" high. Additional letters, \$.75 each. Price complete ready to mount \$125.00.

Custom Estate Signs

CUSTOM CRAFTED TO YOUR SKETCHES OR PHOTOGRAPHS

Here is an opportunity to express absolute individuality in your own estate sign! The suggestions shown below are typical examples which are available. From these, you can readily deduct how family names or other personal factors can be used in creating individuality.

You needn't be an artist to sketch your ideas. The simplest rough layout or photo is sufficient for guidance so that we may submit Ernst Hagerstrom's interpretation of your ideas. Our standard procedure requires a designing fee of \$10.00 to accompany your suggestions. This sum is applied against the final purchase price of your individually hand crafted estate sign. Prices, of course, are based upon simplicity or intricacy of the design.

These individual signs have brackets extending to 36" and panels are 26" wide and 22" high. Please bear this in mind when sketching your ideas.

WEATHERVANES

OF FINE QUALITY, DESIGNED AND MADE IN OUR OWN WORKSHOP

These originals are distinctive from other Hagerstrom vanes in several ways. They are somewhat smaller in size and so, well adapted to individual homes, small barns and garages. And the price is affordable.

Simply executed in strong, true lines, each vane has an appeal all its own. Here's an assortment of subjects to please everybody — horse breeders, nature lovers, sailors, hunters, home bodies, etc.

Mounted on oil filled swivels that move easily in the slightest breeze, each vane is perfectly balanced, and comes complete with brackets for easy installation. Made of aluminum in rich black finish to last for years.

BOY GOING FISHING

No. 400

This jaunty little fellow on your rooftop will tell you just which way the wind blows, which may mean the man of the house knows whether the fish are biting and the lady whether her hair will stay in curl.

Look over the inside pages 2, 3, and 4. Each vane tells its own story and is just as lovely as any other—it's just a matter of your personal preference.

MEALTIME

No. 418

This ambitious mother bird is wondering just which one of the hungry babies is to get the worm. And, did you know that each baby robin eats up to fourteen feet of worms each day? That's what keeps the parents busy. But, you may prefer one of the other designs for your sign. Just look inside and make your selection.

COPPER LANTERN

It's a dandy in design and size. Strong, well made of heavy copper and finished in rich black to match the sign. 15" high, 8½" wide. Comes wired, with chimney and a 3½" post cap.
